1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

Problem statement

Given historical data on Olympic Games, including information on athletes, sports, and their performance, the objective is to conduct a comprehensive analysis to gain valuable insights into the trends, patterns, and factors influencing sports participation and performance in the Olympics. This analysis aims to answer questions related to the popularity of different sports, the countries' performance, the impact of various factors on medal counts, and to provide data-driven recommendations for enhancing sports participation and performance in future Olympic events.

Key rules of brainstorming

To run an smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Person 1
Must have properties:

- Analyze historical performance data to identify trends and factors contributing to success.
- Develop personalized fan engagement strategies based on user preferences.
- Create predictive models to forecast athlete performance based on various variables.
- Analyze fan engagement metrics to understand what content and events resonate most with fans.

Person 2
Should have properties

- Develop a system that uses athlete training data to suggest personalized training plans for improvement
- Utilize data to identify patterns of injuries and recommend strategies for injury prevention.
- Provide a platform for comparing current athletes' performance with past Olympic champions.
- Visualize how sports have evolved over time.

Person 3
Could have properties:

- Create a real-time analytics platform for coaches to track athletes' performance during training and competitions.
- Analyze athlete performance and fan engagement data to provide insights for potential sponsorships.

Person 4

- Develop a tool that helps Olympic committees make informed decisions about hosting locations, sports selection, and resource allocation.
- "Won't-Have (this time):" Items that won't be addressed in this project.

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Develop a comprehensive strategy that aims to improve sports participation and athletic performance in the Olympic Games. This project could encompass various elements, including:

1.Data Analysis
2.Talent Identification Participation
3.Promotion Athlete
4.Development
5.Sports Science Research
6.Educational Initiatives
7.Mentorship Programs
8.Gender Equality
9.Infrastructure Developme nt
10.Public Engagement
11.Performance Analysis

4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H key** on the keyboard.
